TOP SECRET

MYSTERIOUS BEGINNINGS

[REDACTED] development and implementation comes as a result of dramatic irony. The [REDACTED] development team, along with the community they represent, is tired of being left in the dark when it comes to the tactical decision-making process of would-be shady developers. We're bringing back crypto to its original task and purpose: decentralization.

The [REDACTED] community is and will continue leveraging the appeal of the unknown with the transparency of a truly decentralized command structure. Through this process, [REDACTED] is bringing to bare:

- Dapps and utility (real token usecase)
- Charitable donations
- P2E games (development in process)
- Multi-chain bridging (process already implemented)
- Marketing partnerships:
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]
 - [REDACTED]

CLASSIFIED

- Community decision making (DAO vibes)
- Giveaways

CLASSIFIED

MYSTERIOUS BEGINNINGS

The Evolution of the Memecoin Landscape:

Crypto has seen a dog, with the help of some unlikely supporters, come as close as any to taking over the world. A joke that spread like wildfire helped to unite millions in an unintentionally divided space. When all the laughs subsided, there remained a few underlying themes in all of this: We don't need big brother looking over our shoulder at every single move we make. We don't need to be fed the same pile of garbage by so called "financial experts". We don't need the rich to keep getting richer while the poor keep getting poorer. We need to give the power back to the people while recognizing no one person is more important than any other.

[REDACTED] is going to do just that.

TOP SECRET

STRATEGIC PARTNERSHIPS

Strategic Marketing & Media-operations:

[REDACTED] Team is continually looking for strategic partnerships that can and will mutually benefit the token and its hodlers. Being an always forward leaning team, [REDACTED] has locked down media coverage with [REDACTED] (TV) [REDACTED], [REDACTED], [REDACTED]

We have oncoming influencers as well, including:

- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED]
- [REDACTED]

Further information is currently classified with level 5 clearance

PRIMARY MISSION

[REDACTED] Tactical Focus:

All of life's best lessons are hard learned through experience. Crypto is no different.

[REDACTED] front sight focus is to solve already existing problems, not to create a solution for a problem yet unthought of. We don't just want to be a charity token, rather we want to give back to those who believe in us most: our hodlers. Reflections are archaic and convoluted, rewarding those at the top handsomely while seemingly forgetting about those at the bottom.

At [REDACTED], we're not only giving back directly and proportionally to our hodlers, we're giving those who may not have the means to move markets an opportunity at doing so. Through our Mystery Box giveaways we're raising the bar for giving back to community. This allows us to simultaneously show our full appreciation for our hodlers while giving Mystery real use-case. Mystery Box order of operations are simple: upon buying into the giveaway using Mystery tokens, you're afforded the opportunity to unlock some of the biggest prizes crypto has ever seen. Because [REDACTED] is looking out for every one of its hodlers, no Mystery Box buyer leaves empty handed:

[REDACTED], [REDACTED], [REDACTED], and [REDACTED] make up just a few of our giveaways. The unveiling of these packages will come 8 days after launch. In addition to our Mystery Box giveaways we will also be doing random giveaways to our active token holders within the telegram community. Our first community giveaway is locked in for 20 BNB to be given away to one hodler within 48 hours of launch.

CONFIDENTIAL

PRIMARY MISSION

Did we mention we are a hyper deflationary token? ALL tokens used in purchasing entry into Mystery Box giveaways are immediately burned and their liquidity locked. This is done in order to constantly raise [REDACTED] floor price. Actions as these bring safety and security back to the BSC network while rewarding the greatest hodlers in crypto. Periodic community voted buy backs will also take place in order to burn tokens at a greater rate. These events are not scheduled for the reason of giving the power back to the hodlers. Everyone's voice will be heard no matter how great or small their investment.

Staking: Intelligence being collected and intel package coming soon.

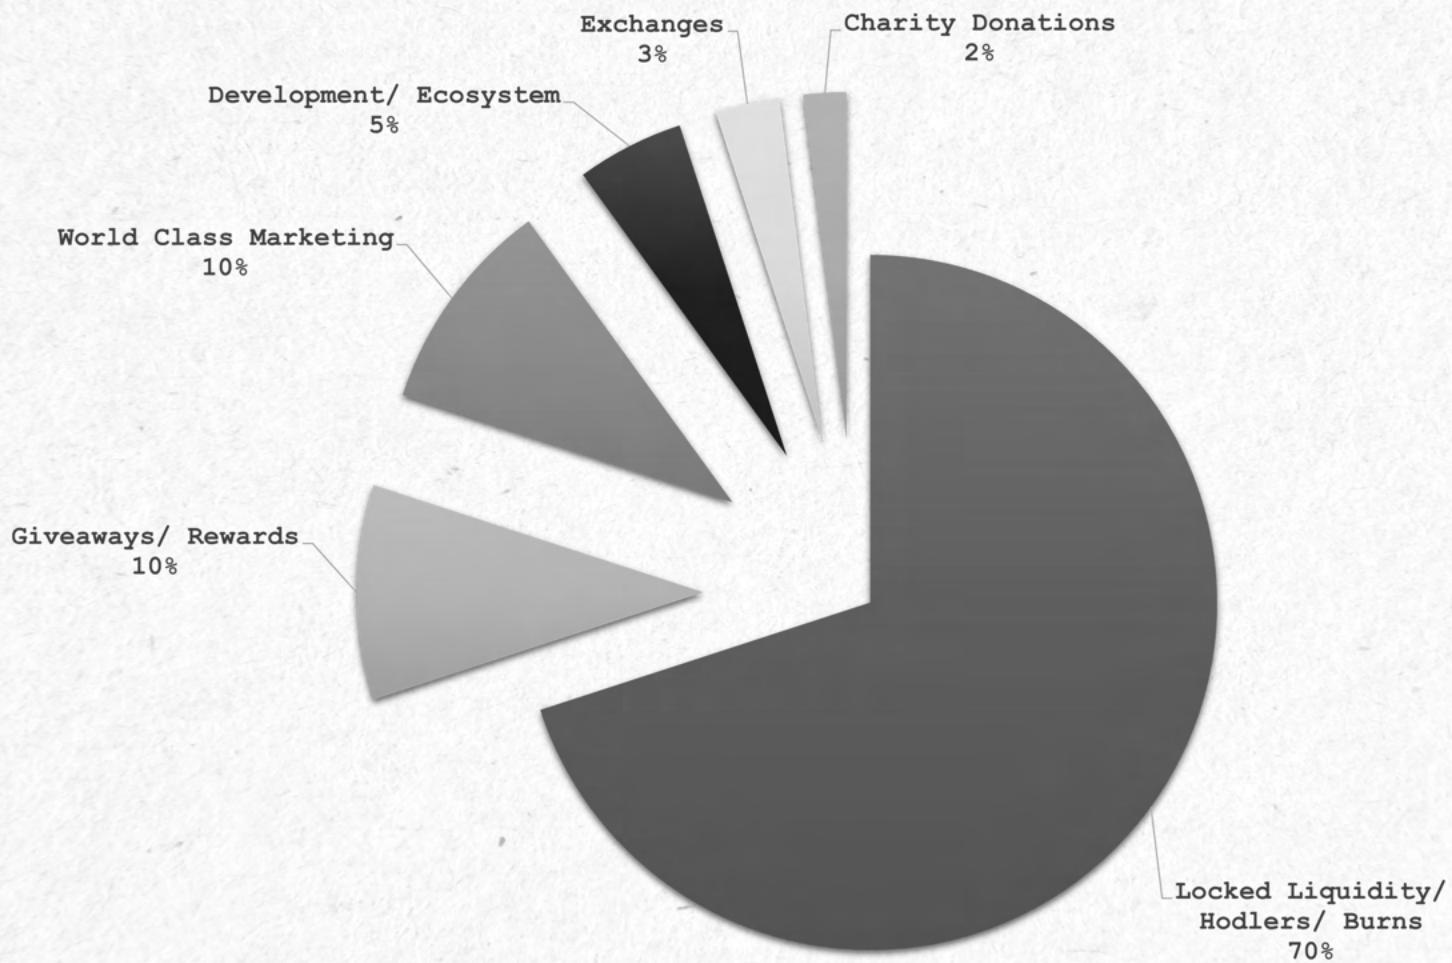

Play To Earn: Intelligence being collected and intel package coming soon.

DECLASSIFIED

TOKENOMICS

Total Supply: 1,000,000,000

DECLASSIFIED

TAXES

At [REDACTED], we believe a sound tax structure is the backbone for strong projects on the BSC Network. These come by way of consistently recycling liquidity and locking it to constantly raise the floor price while supporting present ecosystem infrastructure. [REDACTED] bulletproof tax structure is as follows for both buys and sells:

Tax Structure:

- 3% Further Marketing Efforts
- 3% Ecosystem Development
- 2% Build Liquidity Pool (Daily Lock Events for added Liquidity)
- 2% Supports Giveaways & Rewards
- 1% Charity of the Communities Choosing

ROADMAP

Phase 1:

Fair Launch

Coin Market Cap Listing

Coingecko Listing

Buy Backs

Token Burns

Mystery Box launch for prizes and use-case implementation

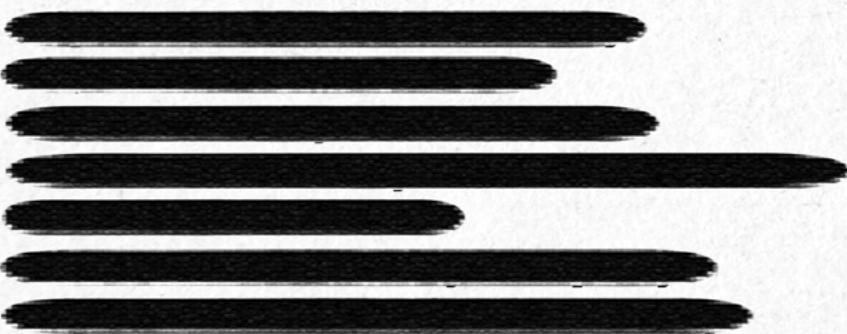

5000 Telegram Members

5000 Hodlers

CEX Listings

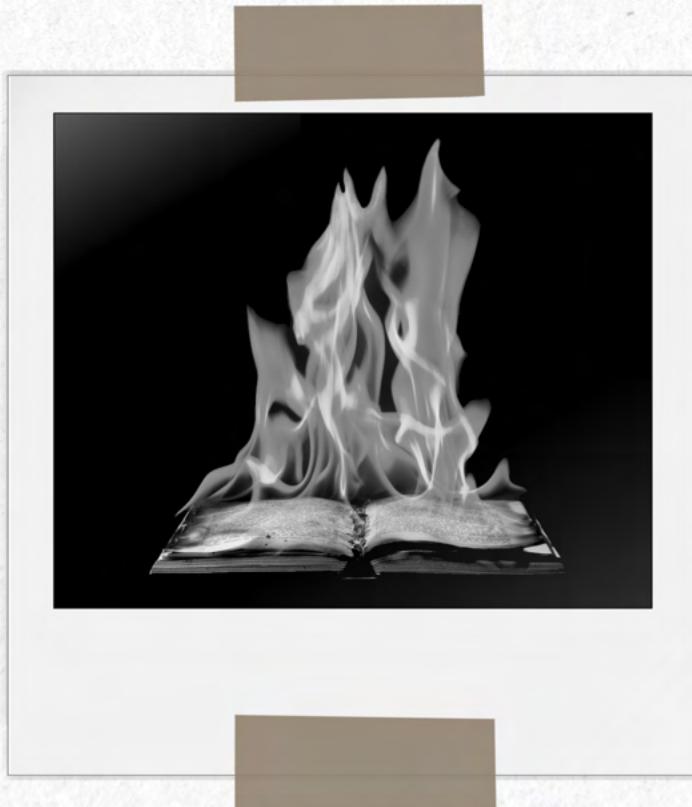

Marketing Campaign

Daily & Weekly Giveaways

Phase 2: *classified* (to be unveiled soon)**Phase 3: *classified* (to be unveiled soon)**

TOKEN BURNS

[REDACTED] was created with a 1,000,000,000 token supply. Being a hyper deflationary token, buy backs and bulk-burns will be made regularly and the liquidity immediately locked. This allows for a rising price floor which is imperative to a healthy and successful deflationary token.
